APPENDIX A: MARKED-UP CLAIMS

21. An improved sample collection device for use in identifying newborn/mother pairs, said device comprising:

    i.   a location and label for a maternal cell sample,

    ii.   a location and label for a newborn cell sample;

    iii.   optionally, a location and label for a mixed newborn and mother cell sample; and

    iv.   optionally, a location and label for a paternal cell sample.

22. The sample collection device of claim [4] 21, wherein the device is selected from the group consisting of a Guthrie card, a trifold collection card, a bifold collection card, paper, slide, tube or container.
